100 yards to stone $\frac{II}{12}$, south by east 55 yards to stone $\frac{II}{13}$, thence in a slightly curved line south south-west 181 yards to stone $\frac{II}{14}$, south-east 70 yards to stone $\frac{II}{15}$, which is situated at a point 56⅔ yards north north-east of boundary stone III, thence 46 yards east south-east to stone $\frac{II}{16}$, thence north north-east 119 yards to stone $\frac{II}{17}$, thence south-east by east 191 yards to stone $\frac{II}{18}$, 143 yards further to stone $\frac{II}{19}$, and east by south 150 yards to stone $\frac{II}{20}$, thence south 30 yards to stone $\frac{II}{21}$, and east south-east about 168 yards to stone $\frac{II}{1}$.

V. At stone No. III, the line turns sharply and running south by west for some distance still follows and coincides with the village boundary of Dodkunte; until it meets the hedge of the large village known as "The Tanneries." This point is marked on the ground by boundary stone No. IV, and is lettered B on Revenue Survey Sheet I.

VI. Leaving Station boundary stone IV, the old boundary is followed up to the east of the Tannery road and is marked $\frac{IV}{1}$. From this point the boundary line runs north-east for a distance of 1,375 feet to stone No. $\frac{IV}{2}$ along east of the road. From stone $\frac{IV}{2}$ the boundary lines runs 58½ feet north-east by east to stone $\frac{IV}{3}$, and from stone $\frac{IV}{3}$ it runs 79 feet north-west by north to stone $\frac{IV}{4}$, to the north of the Police outpost. From stone $\frac{IV}{4}$, the boundary line goes 73 feet south-west to stone $\frac{IV}{5}$. From stone $\frac{IV}{5}$, the boundary line runs 23 feet south-east by south to stone $\frac{IV}{6}$, completing the circuit of the Police outpost. From stone $\frac{IV}{6}$ the boundary line runs 155 feet south-west by west along west of the road to stone $\frac{IV}{7}$. From stone $\frac{IV}{7}$ the boundary line runs 376 feet south-west along west of the road to stone $\frac{IV}{8}$ meeting the Station boundary at the north-east corner of the "Idga" near the road culvert. After this, the boundary follows the irregular outline of the Masjid immediately north of that village Survey block No. 671 on Revenue Survey Sheet I, until it meets to the west of the Tanneries, the northern boundary line of the Inam village of Byadarahalli. This point is marked on the ground by boundary stone No. V and is lettered C on Revenue Survey Sheet I.

VII. From point C boundary stone No. V, the Station boundary follows the westerly course of the north village boundary of Byadarahalli until the angle formed by the northern and western village boundaries is reached, this angle being marked by boundary stone No. VI.

VIII. From stone No. VI, the Civil and Military Station boundary line follows in zig-zag the west boundaries of the Byadarahalli fields until it crosses the Nullah at stone now marked $\frac{VII}{1}$. From stone $\frac{VII}{1}$, the boundary line turns to the west for a distance of 218 feet to stone $\frac{VII}{2}$. From

stone $\frac{VII}{2}$, the boundary line runs south-west by west for 85 feet to stone $\frac{VII}{3}$. From stone $\frac{VII}{3}$, the boundary line turns south-west by south for 70 feet along the west of the Police outpost to stone $\frac{VII}{4}$. From stone $\frac{VII}{4}$, the boundary line runs east along south of Police outpost to stone $\frac{VII}{5}$. From stone $\frac{VII}{5}$, the boundary line runs north for 20 feet to stone $\frac{VII}{6}$. From stone $\frac{VII}{6}$, the boundary line runs 267 feet east to corner of present boundary line south of St. John's Hill cross road and opposite the S. B. stone VII, to which point the existing S. B. stone No. VII should be removed and refixed. Thence it passes down St. John's Hill cross road just outside the south-western side drain until it reaches the eastern corner of field No. 668, where boundary stone No. VIII is fixed.

IX. Leaving St. John's Hill cross road at this point, the Station boundary runs south-west along the north-western boundary of Survey Nos. 667 and 68, and at the south-western corner of the latter No. 68, boundary stone No. IX is fixed.

X. From boundary stone No. IX, the Station boundary runs south-west almost in a straight line just outside the south-east drain of Miller's road and the western side of Survey Nos. 474, 473, 464 and 455 till the south-western extremity of No. 455 is reached, where boundary stone No. X is planted.

XI. From boundary stone No. X, the Station boundary meeting the north side of the High Ground runs west along the northern boundary of Survey No. 459 up to the north-western corner of that number and thence it passes south along Avenue Road and the western boundary of Survey Nos. 458, 129, 128, 127 till at the south western extremity of No. 127 it meets the new boundary stone No. XI on Revenue Survey Sheet No I.

XII. From new boundary stone No. XI, the line runs east by south along the southern boundary of Survey No. 127 and thence turns to the south alongside the Nullah which is the eastern boundary of Survey No. 126, thence turning north through Survey No. 122 and east through the middle of Survey No. 124, it turns south-east, skirting the Government Press buildings to the southern extremity of Survey No. 40 where new boundary stone No. XII is fixed, adjoining the Pettah Road and to the south west of the entrance to the Residency Park, which is almost opposite the south-west end of the Public Offices.

XIII. From new boundary stone No. XII, the line takes a northerly direction parallel with the fence of the Residency compound along the Pettah Road up to the stone pillar at which the wire fence of the Cubbon Park begins almost due south of the Post Office, where boundary stone No. XIII is placed.

XIV. The Station boundary line then proceeds along the Cubbon Park wire fence to the angle in the fence immediately opposite His Majesty's Post Office and thence follows the Park fence to St. Mark's Church or West

Parade Road, at which point boundary stone No. XIV is fixed. Point G on Revenue Survey Sheet I.

XV. From stone No. XIV, the boundary still keeping to the Cubbon Park fence runs along St. Mark's Road and curving round line of fence at Cubbon Park Police Station marked stone No. $\frac{XIV}{1}$, the boundary line turns almost due west for 139 feet along the north of the Cubbon Park Station to stone $\frac{XIV}{2}$ and from stone $\frac{XIV}{2}$ the boundary line runs south for 97 feet and along west of the Police station to stone No. $\frac{XIV.}{3}$ From stone $\frac{XIV}{3}$ the boundary line turns to the east for 41 feet and south of the Police station to stone No. $\frac{XIV}{4}$, where it meets the Sydney Road and runs along front of the Museum to the cross roads, whence the causeway across Sampangi tank takes off. The change of direction which here occurs is marked by boundary stone No. XV, Point I, Revenue Survey Sheet I. From this point the boundary runs along the western edge of the Sampangi causeway until it falls into the Sampangi tank bund, boundary stone No. XVI being fixed at this point of intersection, Point J of Revenue Survey Sheet I.

XVI. Leaving boundary stone No. XVI, the line follows the curve of the compound wall of Revenue Survey Office and the roadside walls of Colonel Beresford's house until it reaches the corner of Lal-Bagh Road immediately opposite the gate of Langford House, which point is marked by boundary stone No. XVII, Point K, Revenue Survey Sheet I.

XVII. Passing down Lal-Bagh Road along the compound hedges of the adjoining houses, the line crosses the road near the porch of Sonnaiya & Co.'s flower garden, at which point boundary stone No. XVIII is fixed, Point L, Revenue Survey Sheet I, and runs due south along the hedge and ditch bordering the tope and gardens, which here extend from Lal-Bagh Road down to the bed of Sunnakal tank, at the end of this reach a re-entering angle is formed by the boundary, coinciding with the boundaries of the Survey numbers, and the corners are marked on the ground by boundary stones Nos. XIX, XX and XXI.

XVIII. From stone XXI the line runs due east along the northern wetted border of Sunnakal tank, adhering to the garden boundaries as marked on ground by the earthen Survey "Bandhs," in other words, along the southern village boundary of Hakkitimmanhalli. After passing between the south-western corner of the Cantonment cemetery and the northern end of the Sunnakal tank bund, it curves round south for a short distance so as still to follow the field boundaries of Hakkitimmanhalli until it crosses the Anekal District Road not far from where the latter takes off from the High Road to Oossoor.

XIX. From the Anekal road the line continues due east and crossing the Oossoor Road keeps to the boundary between the villages of Hakkitimmanhalli and Koramangal until it falls into the bed of Koramangal tank. The angle near the cemetery and end of Sunnakal tank bund is marked on the ground by boundary stone No. XXII, the points where the Anekal

and Oossoor roads are crossed by stones Nos. XXII and XXIV, and the point where the line on falling into Koramangal tank changes direction to the north-east by boundary stone No. XXV.

XX. From stone No. XXV, the boundary runs along the edge of the Koramangal tank to stone No. XXVI on the south side of the Nilasandra road to the south-west of the Commissariat slaughter-house and thence along the south side of that road to stone No. XXVII, which is at the point where that road meets the road running along the west side of the Artillery Practice Ground.

XXI. Thence the Station boundary simply skirts the southern slopes of the Artillery Practice Ground, following the lines of stone posts which demarcate the range, until on its eastern side the point is reached where the boundaries of the villages of Chellagatta and Domlur meet. This is Point O on Revenue Survey Sheet 2, and is marked on ground by boundary stone No. XXX, the southern angles of the Practice Ground being shown by boundary stones Nos. XXVIII and XXIX.

XXII. From point O, boundary stone No. XXX, the Station boundary line bears away north-east above the bed of Chellagatta tank, and then, at a point marked by boundary stone No. XXXI near the Vartur District road it turns north and follows from "Bandh" to "Bandh" the eastern field boundaries of Domlur and Dukanhalli villages. At the north-eastern angle of the village boundaries of Dukanhalli, marked on ground by boundary stone No. XXXII, the Station line turns west along the Dukanhalli northern boundary, and then leaving the hamlet of Abbareddipalyam on the left, runs into the village boundary of Binnamangal at point marked by boundary stone No. XXXIII.

XXIII. The southern and eastern village boundaries of Binnamangal are then followed until the line after passing close by the village tank falls into the Hoskote high road nearly opposite to Army Signalling Station No. 5, at which point boundary stone No. XXXIV is fixed.

XXIV. From stone XXXIV the Station line runs up the Hoskote road for a short distance to the Survey "Bandh," at side of road, from which mark it again runs due north across the fields, until the north-eastern angle of the village boundaries of Binnamangal is reached where boundary stone No. XXXV is fixed.

XXV. Thence the Station boundary bears west down the trough of the valley crosses the low ground immediately above Binnamangal Tank and runs up the slope to the Sapper Parade Ground on edge of which boundary stone No. XXXVI is placed, Point P on Revenue Survey Sheet No. 2. Running then north along the Sapper Parade Ground to the corner marked on the ground by boundary stone No. XXXVII, it turns again west along the Parade Ground until it reaches the Dodkunte south-eastern limits. This point is marked on ground by boundary stone No. XXXVIII.

XXVI. The Station line then follows the village boundary north along the walls of the St. John's Hill Christian Cemeteries, Survey blocks 677 and 676 up to the point where it is intersected by the Madras Rail-

way, outside the northern fence of which boundary stone No. XXXIX is fixed.

XXVII. From this last point the Station line follows the eastern village boundary of Dodkunte until it closes on the starting point boundary stone No. I.

XXVIII. From the above description it will be seen that the Bangalore Civil and Military Station includes within its limits the villages of Dodkunte, Byadarahalli, part of Upparhalli, part of Sampangihalli, Hakkitimmanahalli, Nilasandra, Sonnenhalli, Domlur, Dukanhalli and Binnamangal, within which lie the villages of Bilkihalli, Shule, Kupsandra, Alsur and the various bazaars, barracks, parade grounds, Station cemeteries, etc.

XXIX. The stones which mark the limits and are enumerated above are square in section and stand two feet from the ground, the top being chiselled off to a wedge as per marginal sketch, on the face of which are counter-sunk the number in Roman characters and the letters "S. B." (Station boundary).

SPECIAL AUDIT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1903.

Circular No. 2016—*P. & A.* 978, *dated* 18*th June* 1903.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1903 prepared in accordance with the instructions laid down in pages 17, 18 and 19 (Chapter 5), Volume 1 of the Fifth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th September* 1903.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July, and in preparing it, the following instructions should be carefully observed :—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant the word *vacant* should be set against it in the column of "*Name of incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment; *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i. e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be

included in the return, and compared with the certificate (in Form No. 8) required by Article 62 which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of 55 years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the statement, and the period for which his retention has been authorised should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from other Government appointments, those appointments should be specified, as well as the dates from which the transfers have effect. Columns are also provided in Form 4, for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted; as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*), as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree,"—*and accompanied with the special report and personal certificate of the Head of office directed to be sent in para 3 of Government Proceedings No.* 13911-50—*P. and A.* 1216, *dated* 18*th March* 1903.

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

6. Pay bills due 1st October will not be discharged at the Treasuries unless accompanied by a certificate *stating that the schedule for 1st July has been forwarded to this office.*

He should note in each Service Book every change in the order of its occurrence and after the entry has been duly verified by reference to Departmental orders, pay bills, leave statements, or other official documents, he should have it attested by the head of the office, and should see that—

(*a*) the date of birth by the Christian era is recorded;

(*b*) the dates of commencement and termination of service in an appointment with the rate of pay are correctly noted;

(*c*) suspensions, degradations, dismissal, or removal from service on account of misconduct or inefficiency, are duly noted with a brief note of explanation (Article 437, (*b*) Mysore Service Regulations);

When an officer is transferred, whether permanently or temporarily, from one office to another, the necessary entry showing the nature and reason of the transfer, should be made in his Service Book in the office from which the officer is transferred, and the book after being attested by the head of that office, should be transmitted to the head of the office to which the officer has been transferred.

ANNUAL VERIFICATION.

The Service Books in each office should be taken up for verification on or before 1st July of every year by the head of the office, who after satisfying himself that the services of the officer concerned are correctly recorded in his Service Book in conformity with the above instructions, should record therein a certificate to the effect that the entries therein made have been duly verified and found correct.

The head of the office in recording the annual certificate of verification, should, in the case of any portion of service that cannot be verified from office records, distinctly state that for the excepted periods (naming them) a statement of services in writing taken from the officer

The Deputy and Assistant Commissioners should make it convenient, either during the jamabandi, or when on tour in their taluks, to inspect the Service Books kept in the Taluk Cutcherries in their Divisions, and to see that they are maintained and completed up to date, and take due notice of any instance of neglect or omission.

Circular No. 2020, *dated* 22*nd June* 1903.

To—The Deputy Commissioners, Treasury Department.

Pursuant to Government Order No. 1150—1192-18-1901-02, dated 7th February 1903, the Comptroller has the honor to request that an additional column "Transfer" may be opened in all the accounts and Registers maintained in the District Treasuries (such as the Head Accountant's Cash Book Deposit and other subsidiary Registers) and also in all the Treasury accounts and the subsidiary returns rendered to this office from 1st July next.

The column "Transfer" should be used for correcting an error of classification in accounts of previous months by transferring an item of receipt from one head of account to another by minus and plus signs. For example, if out of a credit item of Rs. 135-4-6 under "Land Revenue" it is found that Rs. 18-3-2 should go to "Forest" and Rs. 3-4-1 to "Local Cess," the entries in the "Transfer column" will be against "Land Revenue"—Rs. 21-7-3 and against "Forest" and Local cess" + Rs. 18-3-2 and + Rs. 3-4-1 respectively.

2. The errors committed in the account for June, *i. e.*, the last month of a year, can be rectified only in communication with this office as at present.

3. The Transfer column should also be used for entering Transfer adjustments, that is, amounts not received or paid *in Cash*, but credited under one head of account and debited *per contra* under another head on a voucher. For example, if out of an officer's salary bill for Rs. 1,000, Rs. 100 should go to Insurance Fund, on account of the officer's monthly premium to that fund, Rs. 900 should be entered in the cash column and Rs. 100 in the Transfer column in the List of payments with a corresponding credit of Rs. 100 in the Transfer column in the Treasury Cash account under the head "Insurance Fund." Similarly when a Public Service Transfer Receipt, say for Rs. 100, is received on account of price of liquor supplied to Districts, the amount should be debited in the Transfer column against "Public Service Transfer Receipts" and credited *per contra* in the Transfer columns against "Advances for arrack manufacture."

4. The Transfer column should be used in the following manner in regard to receipts and payments partly in cash and partly by transfer. For example, if Rs. 152-4-0 be received for credit to Land Revenue, Rs. 52-4-0 in cash and Rs. 100 by transfer of Revenue Deposit already made, the entries on the receipt side will be Land Revenue Cash column Rs. 52-4-0 and Transfer column Rs. 100 and on the debit side "Deposit repaid" Transfer column Rs. 100.

5. The Treasuries Cash Book and Accounts, dealing as they do with purely net cash transactions, should on no account contain any transfer columns or transfer transactions.

6. The Stationery Depôt has been instructed to supply Treasury accounts, etc., in the revised form.

Resolution.—Proposed by Mr. Cook and seconded by Mr. Krishna Murti that the Schools Committees' report cannot be accepted and as the Inspection report shows 69 on the Roll that the two teachers are totally inadequate, the grant be raised to Rs. 25 tentatively for one year from July 1st and to be continued should the School continue to show satisfactory progress.

SPECIAL AUDIT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1903.

Circular No. 2016—*P. & A.* 978, *dated* 18*th June* 1903.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1903 prepared in accordance with the instructions laid down in pages 17, 18 and 19 (Chapter 5), Volume 1 of the Fifth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th September* 1903.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July, and in preparing it, the following instructions should be carefully observed :—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i. e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be

included in the return, and compared with the certificate (in Form No. 8) required by Article 62 which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of 55 years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the statement, and the period for which his retention has been authorised should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from other Government appointments, those appointments should be specified, as well as the dates from which the transfers have effect. Columns are also provided in Form 4, for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted; as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*), as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree,"—*and accompanied with the special report and personal certificate of the Head of office directed to be sent in para* 3 *of Government Proceedings No.* 13911-50—*P. and A.* 1216, *dated* 18*th March* 1903.

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges must be paid *in advance* to the Compiler of the *Mysore Gazette*.

No. 2—10-9-1901.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 3—10-9-1901.—It is notified that as all Taluk Treasuries are authorized to receive subscriptions for the Gazette, money orders sent to this office will not be received, except from outside the Province.

No. 4—10-9-1901.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5—1-10-1901.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 7—15-10-1901.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8—15-10-1901.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays when such matter can without inconvenience be held over for the next week's Gazette.

No. 9—15-10-1901.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10—15-10-1901.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1903.

Circular No. 2016—*P. & A.* 978, *dated* 18*th June* 1903.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1903 prepared in accordance with the instructions laid down in pages 17, 18 and 19 (Chapter 5), Volume 1 of the Fifth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th September* 1903.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July, and in preparing it, the following instructions should be carefully observed :—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i. e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be

included in the return, and compared with the certificate (in Form No. 8) required by Article 62 which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of 55 years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the statement, and the period for which his retention has been authorised should also be mentioned, If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from other Government appointments, those appointments should be specified, as well as the dates from which the transfers have effect. Columns are also provided in Form 4, for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted; as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. ABSENT.

Ex-Officio Members.

1. Mr. D. Subba Row, Amildar of Chikballapur.

Non-Official Members.

1. Mr. H. Venkatramaniah of Malur.

1. Read proceedings of the last meeting, dated 18th February 1903.
Confirmed.

2. Read details of receipts and expenditure from July 1902 to end of March 1903.

Total receipts under all heads up to end of March 1903 amounted to Rs. 67,422-12-5 and expenditure to Rs. 60,296-11-9.
Passed.

3. Read Government Proceedings No. 15153-92—L. F. 185-02, dated 21st April 1903, reviewing the accounts and reports on the working of the District Funds for 1900-01.
Recorded.

4. Read—(*a*) Government Proceedings No. 16042-53—L. F. 69-97, dated 13th May 1903, to District Funds for maintenance of all inspection lodges absolutely necessary for the *travelling public*, to be classed as 3rd class travellers' bungalows.

(*b*) Secretary's docket No. 17589-95—L. F. 69-97, dated 15th June 1903, calling for a list of inspection lodges which may be necessary for the use of the travelling public.

(*c*) Kolar Division Executive Engineer's No. 222, dated 15th June 1903, forwarding a list of inspection lodges in the district.

The Board agree to taking over the inspection lodge at *Bethmangala*, as a 3rd class travellers' bungalow, provided that the District Fund Board is not called upon to pay the cost of the recent repairs and improvements. The other inspection lodges in the district do not come under the catagory named by the Chief Engineer, *i. e.*, inspection lodges on *District Fund roads*.

5. Read Bowringpet Amildar's No. 54, dated 2nd March 1903, submitting an estimate for Rs. 127-14-0 for constructing two road dams across the jungle streams in the Chigarapur road.

The Board agree to sanction Rs. 127-14-0 for the above works.

6. Read petition of Markondegauda, patel of Kamasandra, claiming compensation for 4 guntas of his land taken up for building musafirkhana at Kamasandra.

Resolved that Rs. 10 be paid for the 4 guntas of land taken up for the musafirkhana.

7. Read petition from the villagers of Kamasandra requesting the Board to deepen the well in the village.

Resolved that the Amildar be requested to submit an estimate for the same.

8. Read—(a) Malur Division Assistant Commissioner's report on the inspection of Malur Municipality.

(b) His yadi No. 866, dated 26th May 1903, forwarding an estimate for Rs. 370 for repairing the steps of the Gajogundla at Malur.

The Board agree to give Rs. 185, half of the estimated cost towards the work of repairing the kunte, as they have already given a grant of Rs. 1,000.

9. Read Sidlaghatta Amildar's No. 581, submitting an estimate for Rs. 460 for repairing the kunte in front of the Cheemanahalli village.

The Board wish for further information, and resolve that Mr. Sreenivasaiengar be requested to inspect the place and submit his report.

10. Read Kolar Amildar's No. 129, submitting an estimate for Rs. 217 for a well at Thotti village.

The villagers having already contributed Rs. 50, this may be spent on making a trial well, to tap water; and if water is found, the Board agree to further expenditure.

11. Read President's proposal to turn the 2nd class travellers' bungalow at Nandi Hills into a 3rd class bungalow.

The Board would like first to ascertain the number of visitors who would be likely to use the bungalow. They do not desire to be saddled with expenses of repairs until the building is in proper order.

12. Read Assistant Commissioner's No. 1941, dated 9th June 1903, recommending the sanction of the estimate for repairing the well in the chattram at Thambihalli, which the Board once declined to sanction, on the ground that the public are not allowed to use it, as the Majjigehalli Swami occupies that portion of the building. The Amildar reports, however, that the Guru has no objection to the use of the well by the public.

The Board agree to Rs. 50 being given for this work, to make a trial in deepening the well.

13. Read Executive Engineer's No. 181, dated 14th May 1903, requesting if the Board is prepared to pay its quota to meet the cost of proposed repairs to the portion of the building used as dispensary at Gudibanda.

The Municipality having agreed to pay their ⅓rd share of Rs. 128, the District Fund will also take their share.

14. Read Executive Engineer's No. 218, dated 13th June 1903, forwarding an estimate for Rs. 1,545, for extending the travellers' bungalow at Chintamani.

The Board approve of the plan, the amount having already been passed in the budget.

15. Read Executive Engineer's No. 203, dated 8th June 1903, regarding the appropriation of Rs. 944 for adding two bath-rooms to the inspection lodge at Bethmangala, which item was excluded by the Board from the list submitted by the Executive Engineer, as the Chief Engineer declined to sanction the conversion of the lodge into a 3rd class travellers' bungalow.

As the District Funds have not yet taken over this inspection lodge, the Board do not see how they can be equitably called upon to pay for repairs and improvements already carried out.

16. Read Executive Engineer's No. 212, forwarding an estimate for Rs. 2,967 for metalling and improving Chintamani-Chinnasandra road, and requesting sanction for a special grant.

The Board agree to a special grant of Rs. 200 for improving the road-dams, and widening the road in parts.

17. Read Goribidnur Amildar's No. 59, sending his proposals for—

(1) Construction of a musafirkhana at Hosur at a cost of Rs. 1,500.

Resolved that there appears to be no great need for a musafirkhana here.

(2) Repairing Hudugur musafirkhana at a cost of Rs. 500.

The Board agree to sanction Rs. 500 for the repairs of the above musafirkhana.

(3) Entertainment of a care-taker to the newly constructed musafirkhanas and supply of vessels for the same.

Resolved that all Amildars be requested to submit a consolidated proposal for each taluk, regarding care-takers and vessels for *newly* constructed musafirkhanas.

18. Read Malur Division Assistant Commissioner's No. 909, suggesting to transfer, for maintenance, the Mulbagal-Tayalur road to the Public Works Department.

Resolved that the Executive Engineer be requested to give his opinion after inspection.

19. Election of non-official members for the ensuing Dasara Representative Assembly. Messrs. Subbasastri and Appajiraddi were duly elected by ballot.

Subjects.

I. Read Kadur Division Executive Engineer's docket No. 295, dated the 2nd May 1903, stating with reference to resolution No. VI of the 6th February 1903, that the cost of constructing a foot bridge over the Nandini stream near Kigga would be about Rs. 2,500 and that of a 9-feet road bridge about Rs. 4,500.

Also Koppa Amildar's report No. 93, dated the 24th June 1903, stating that a bridge across the Nandini is very necessary as Kigga is a place of great importance.

Recorded and resolved that the subject of constructing a bridge across the stream be deferred till the Executive Engineer can visit the spot and decide whether a less costly wire bridge would not be sufficient to meet the requirements. It is noted that there is not much traffic on the road and a bridge is required for foot passengers only during the time of the floods in the stream.

II. Read Government Order No. 16042-43—L. F. 69-97, dated the 13th May 1903, directing the transfer from 1st July 1903 to District Funds, for maintenance, of all inspection lodges which are considered absolutely necessary for the use of the travelling public, and that they be classed as 3rd class travellers' bungalows, and calling for a list of such lodges. Read Senior Surgeon's docket No. 3138, dated the 9th May 1903, stating that a dispensary may be opened at Aldur provided the villagers of Aldur, provide a house free; and also Chikmagalur Amildar's report No. 1745 of the 24th May 1903 stating that the villages of Aldur agree to provide a house free for the dispensary at present and to have a building built for the dispensary and the Hospital Assistant, if a site and necessary timber be granted to them free of cost.

Resolved that if the villagers will make over to the District Fund Board a suitable building for the dispensary and the residence of the Hospital Assistant, the Board will take into consideration the question of establishing a dispensary at Aldur. As there is no Municipality at Aldur, the whole cost will have to be borne from the District Funds. Resolved that the papers be referred to the Civil Surgeon for expression of his opinion.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

COMMERCIAL EXHIBITIONS.

Simla, the 12th June 1903.

RESOLUTION.

The following Notification of a Universal and International Exhibition to be held at Liége in the year 1905 is published for general information.

J. O. MILLER,
Secretary to the Government of India.

LIEGE UNIVERSAL AND INTERNATIONAL EXHIBITION

ORGANIZED FOR 1905

Under the High Patronage of His Majesty the King of the Belgians, the Honorary Presidency of H. R. H. the Count of Flanders, and the Presidency of H. R. H. Prince Albert of Belgium.

A Universal and International Exhibition will open at Liége in the month of April 1905 and will last for at least six months.

It will include chiefly Artistic, Scientific, Industrial, Commercial and Colonial Sections.

The Artistic Section will consist of a Fine-Art Salcon and, most probably, of an Exhibition of old Art of the Liége District. The inestimable riches found in museums, public monuments and private collections of our antique Principality will enable this last named section to be remarkably supplied, and this display will be completed by a compartment of photographic reproductions of the quaint old monuments of Belgium.

The Colonial Section will comprise an exhibition of the Congo Free State and this will be given an importance to echo the keen interest now inspired by this work of grandeur, due to the initiative of the King.

The programme also includes temporary agricultural and horticultural Shows, Congresses, Conferences, artistic and sportive Fêtes, and Competitions of every description.

Further, the organisers purpose reserving a special spot for re-constituting Old Liége, where monuments and specimens of architecture of the City of the Prince-Bishops will be reproduced.

*
* *

The Exhibition will take place in that picturesque frame forming the valley of the Meuse at the confluence of the Ourthe. The main grounds attached will be the Cointe Park displaying its landscapes of verdure over the hills surrounding the City.

These two sites, only 1,500 metres distant from one another, will be connected by various means of communication.

The Exhibition will cover a total area of 45 hectares, an important part of which will be reserved to foreign sections. It will be connected with the Nord-Belge Railway Company's and the Belgian State Railway lines.

The Principal Palace as well as the Halls of the Exhibition will be built of iron and covered with hard materials; the roofed surface amounting to at least one hundred thousand square metres.

The machinery gallery will include numerous workshops in operation under the eyes of the public.

A vast park containing numerous attractions will surround the buildings.

*
* *

The necessary measures will be taken for protecting patentable inventions, industrial designs or models, and manufacturing or trade marks appearing at the Exhibition.

The Government will grant on the State railways free transport, to and fro, of Belgian products consigned to the Exhibition and free return in the case of foreign exhibits.

The Exhibition will be treated as an actual bonded warehouse, foreign goods intended to appear at the Exhibition being allowed provisional duty-free importation subject to being afterwards re-exported.

*
* *

The Executive Committee are already engaged in setting the general regulations, the classification of products, and conditions of admission to the Exhibition.

The system of division by national compartments, *i. e.*, grouping together the works and produce of each country, combined with a mode of general classification, has already been adopted.

The price for space will include the expenses of general decoration and handling charges: exhibitors will thus be enabled to ascertain beforehand the exact outlay incumbent upon them.

A lottery will be organised under the authority and supervision of the Government; most of the prizes will be purchased from amongst the exhibits.

An International Jury appointed with the approbation of the Government will undertake the allotment of awards.

*
* *

The Cities of Brussels and Antwerp organised in the past Universal Exhibitions which proved highly successful: our large Walloon City, having regard to its topographical situation, the importance of its population, the Art treasures it has been accumulating for centuries, the numerous and really important industries of which it is the centre, the extent of commercial relations which it has succeeded in establishing all over the world, may look forward to an equal success.

The industrial basin around Liége is in the position to give the metallurgy, mining, machinery, arm-manufacturing, electricity and automobilism groups such a character and importance as have perhaps never been realised at former exhibitions.

Important corporations of Liége are now under formation, extensive participations of the whole of Belgium are so far secured, and adhesions have been received from the large neighbouring countries having active commercial relations with Belgium.

In this regard it might be noted that the general trade of Belgium in 1901 amounted to 7,000,000,000 francs of which 1,421,204,362 francs with Germany, 1,224,992,763 francs with France, 1,068,160,217 francs with Great Britain, 635,705,495 francs with the Netherlands, 589,344,991 francs with the United States of America.

*
* *

With the view of increasing the attraction to foreigners which a journey to Liége will afford, the Executive Committee will endeavour to help such persons as take an interest in studying industrial questions, to gain admission to those large metallurgical and coal-mining establishments which have contributed to render the Liége Basin one of the most important industrial centres of the world.

This novelty in connection with an Exhibition will certainly form a highly appreciated attraction, to say nothing of the many other reasons likely to draw visitors to Liége in 1905.

Grand fêtes are contemplated to be held in the principal cities of the country for the purpose of celebrating the 75th anniversary of National Independence with which the Exhibition is to coincide.

On the other hand, our City is a capital centre for excursions to the picturesque localities along the Meuse and its affluents, such as Spa, Chaudfontaine, Tilff, Esneux, Argenteau, Namur, Dinant and the Ardennes.

Only a few hours' rail separates it from the other large cities of the country. In this connection we would note that the State Railway's circular travelling tickets offer great facilities for successively visiting *Brussels*, the capital, remarkable by its busy life and its monuments; *Antwerp*, the commercial metropolis of the country, so justly celebrated on account of the works of the great Flemish painters it contains; *Ghent*, well known by its textile industries and horticultural establishments; *Bruges*, the ancient Venice of the North, whose artistic treasures are incomparable; and the seaside resorts, of which *Ostend* is the queen.

*
* *

Although undertaken by solely private initiative, the Liége Exhibition has already secured the effective co-operation of the Belgian Government as well as the support of the City and Province of Liége.

It is placed under the High Patronage of His Majesty the King of the Belgians and the Honorary Presidency of H. R. H. the Count of Flanders.

H. R. H. Prince Albert of Belgium has accepted the effective Presidency over the Government Commission of the Exhibition.

The organizing Committee already includes an official Delegate of the Government pending the early institution of the Commissionership-General of the Government.

This Exhibition is not organised with a view of profit, the sole object of its promoters being to honour the completion of large public works, the carrying out of which is calculated to ensure to the City of Liége the development commanded by its ever-increasing importance, and to worthily commemorate the 75th anniversary of National Independence.

Their higher idea is also to make their country appreciated abroad and to contribute to win it the sympathy and esteem of other nations, which will always be the most valuable safeguard of Belgium's independence and free institutions.

The Executive Committee therefore warmly appeal to all, convinced, as they are, that the character and object of the Liége Exhibition will secure numerous and important adhesions.

Every tender must be accompanied by a deposit of Rs. 100 in currency notes as earnest money; in default of which no tender will be accepted. Covers containing tenders should be addressed to the Deputy Conservator of Forests, Coorg, Mercara, and duly insured, registered and superscribed "Tender for Ebony."

All tenders received will be opened on the 1st August 1903, and any which arrive after that date will be returned unopened to the Post office.

Every tender must formulate its bids for each separate lot in the detail statement aforesaid. *No offers per cubic foot, or for one or more specified logs or lump sum bids for two or more lots, or for the whole, will be considered.*

The Deputy Conservator of Forests does not bind himself to accept the highest or any tender. Acceptance will be communicated to the successful tenderer and the earnest money of others will be returned on production of stamped receipts.

A successful tenderer shall remit into the Treasury, through letters of advice which will be supplied to him, within 7 days of the acceptance of the tender, a 10 per cent deposit on the value of his purchase; and also the balance (after deduction of earnest money) within 30 days from the date of acceptance. In default of either, the tender may be cancelled, the earnest money forfeited, and a re-sale held at the risk of the defaulter.

Timber which is sold remains from the date of acceptance at the risk of the purchaser, but no removals will be allowed until the payment of the full value.

Re-measurement of logs is allowed to purchasers, but the Deputy Conservator of Forests will not accept any differences thus brought to notice after removal, or in any case unless the same is proved to his satisfaction. Any accepted differences whether in excess or deficit shall be adjusted by proportional payments or deductions.

No. 1—10-9-1901.—The *Mysore Gazette* is published at Bangalore every Thursday. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges must be paid *in advance* to the Compiler of the *Mysore Gazette*.

No. 2—10-9-1901.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 3—10-9-1901.—It is notified that as all Taluk Treasuries are authorized to receive subscriptions for the Gazette, money orders sent to this office will not be received, except from outside the Province.

No. 4—10-9-1901.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5—1-10-1901.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6—1-10-1901.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7—15-10-1901.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8—15-10-1901.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays when such matter can without inconvenience be held over for the next week's Gazette.

No. 9—15-10-1901.—Spare copies of notifications etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification etc.

No. 10—15-10-1901.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

5. If, in any matter connected with a Department not immediately under his own charge, the Dewan considers that immediate action is necessary, and that the delay involved in consulting the Councillor in charge of the Department is likely to be prejudicial, he may issue orders on his own authority. In all such cases, a copy of the Dewan's orders shall at once be supplied to the Member whose Department is concerned, and the proceedings shall be reported for the information of His Highness the Maharaja, with a statement of the reasons which necessitated recourse to the special powers conferred by this rule.

6. The Secretary in each Department shall work under the general or special directions of the Dewan and be solely responsible to him.

7. A Member of Council shall have the power to call upon the Secretary to supply information regarding a case pending before such Member, or regarding the manner of or delay in disposal of any case which the Member has had before him.

EXTRAORDINARY.

Published by Authority.

BANGALORE, MONDAY, AUGUST 18, 1902.

No. 77, dated Camp Mysore, 14th August 1902.

Proceedings of an Extraordinary Meeting of the Council of His Highness the Maharaja, held in the Palace, Mysore, on the 14th day of August 1902.

The Council met at 12-30 P.M.

His Highness the Maharaja presided.

The Dewan and both the Councillors were present.

His Highness the Maharaja addressed the Council as follows :—

"Dewan Sahib and Councillors,

"Our business today is purely formal and will not detain us long. My object in calling "this extraordinary meeting is twofold. In the first place, I desired that no time should be "lost in the new administration giving tangible evidence of its existence, and in the second, I "wished to take the earliest opportunity of meeting my Dewan and Councillors face to face in "their corporate capacity.

"We are once again in Mysore at the beginning of a new experiment. Whether that "experiment is a success or the reverse will depend greatly on you. Of your devotion to myself "personally, I am well aware. In your devotion to the interests of the State, I have full con-"fidence. No human institution can be perfect and the new scheme of administration will "no doubt disclose defects of one kind and another. As the fruit of the labours of my Dewan "aided by the advice of my good friend the Resident, I myself hope and expect much from "it, and it is my earnest desire that it should succeed. This object can only be attained, how-"ever, by single-hearted and unselfish co-operation between each and all the Members of the "Council. It cannot be expected that you will always agree with one another or that I shall "always agree with you. It may be that at times you may feel some soreness individually "or even collectively at being overruled. At such times I ask you to give credit to those "who disagree with you for being actuated by the same sense of public duty as yourselves, "and to reflect that, in giving your honest opinion and urging it to the utmost of your power, "you have done your duty and retained your self-respect. I ask you to banish any sense of "resentment and to address yourselves to the next question before you with undiminished "courage and good will.

"If this is the spirit that animates our labours, I can, relying on your mature experience "and proved abilities, look forward with confidence to the future. In conclusion, I desire to "assure you collectively of my loyal support, and individually of my unfailing sympathy and "consideration. May Heaven guide us always, to the lasting good of my dear people."

The Dewan thanked the Maharaja for the encouraging assurances of support and sympathy, and said that he felt assured of the hearty co-operation of the Councillors, and hoped that His Highness' administration may prove an unqualified success, and be productive of lasting happiness to his subjects.

1	...	11-5-03	Basettappa, No. 28 Dodda Matt, Akkipet.	Municipal Prosecuting Inspector.	...	For not obtaining license from the President for erecting a cattle-shed.	Acquitted 29th June 1903.	Two witnesses were examined for the prosecution. It is contended for the accused, among other things, that this shed is not on the edge of the road but that it is behind a line of shops which are adjacent to the road. This fact has been admitted by the witnesses for the prosecution, hence there was no necessity to go any further into the evidence for the prosecution. Section 148, Municipal Regulations, makes it penal to build in or near a street without license. But in this case the shed is put up behind a row of shops which are near the road. Hence I find the accused not guilty of the offence under Section 148, Municipal Regulations, and therefore acquit him under Section 245, Criminal Procedure Code. (Sd.) Vaidyanatha Iyer. City Magte.

3. Read Government Proceedings No. 18052-4—L. F. 11-02, dated the 24th June 1903, approving the Board's recommendation for the retention of the Dispensary at Taluk Cutcherry instead of that at Nagarthpete.

Resolution.—Recorded.

4. Read Government Proceedings No. 18215-20—L. F. 11-03, dated the 27th June 1903, sanctioning the budget estimates of the Bangalore City Municipality for 1903-04.

Resolved that the Board is unable to accept this extra charge, but has no objection to the change of lamps so long as no extra charge is incurred.

16. Read Sub-Committee's report on the petition from the Mahomedan merchants of New Taragupet praying for a site being granted to build a place of worship.

Resolution.—Deferred.

17. Read Mr. Baiyanna's petition agreeing to build two bathing ghats and three cattle troughs in the Bangalore City.

Resolution.—Recorded.

21. Read Government Proceedings No. 115-16—L. F. 25-03, dated the 8th July 1903, declining to sanction the continuance of the Hospital Assistants of the three dispensaries which were recently abolished, to be Registrars of births and deaths, and calling for proposals about reviving the old system of appointing such Registrars on pay of Rs. 10 to Rs. 15, unless the work can be managed with the Registrars in charge of the Dispensaries retained in the City.

Resolved that the Board do not approve of non-medical men as Registrars, as they would be unable to diagnose diseases sufficiently, and that Government be asked to reconsider their Proceedings and to allow at least two medical men for Registrars, one of whom may be located at Kalasipalyam and one at Nagarthpete.

SCHEDULE B.

(See section 26.)

STATEMENT OF OBJECTS AND REASONS.

In September last the Government appointed a Committee to devise a scheme for the improvement of the City of Mysore, for reasons which were thus stated in their order :—

Government Order No. 4168-79—L. F. 36-02, dated 18th September 1902.

"It is unfortunate that the City of Mysore, notwithstanding the large sums spent upon it for improvements, should still be subject to outbreaks of plague each successive year. Government consider that nothing but sustained exertions for carrying out a carefully prepared programme of sanitary improvements can establish the health of the place. Congested portions should be opened up not simply by demolishing houses and sending the inhabitants adrift, but by devising suitable extensions and affording facilities for the building of houses. It is unlikely that the Municipality will be able to find all the money required for improving the City. But taking its general importance as the Capital of the State into consideration, His Highness the Maharaja considers that the State may properly bear a large part of such extraordinary outlay. How much of the expenditure required may be fairly expected to be met out of Municipal resources, is a question that can be settled only after obtaining an approximate idea of its total amount.

"The scheme may be completely thought out and matured once for all. It would be impossible even for the State to find all the money at once; but the expenditure may be spread over a number of years.

"The general lines on which improvements could be usefully designed seem to be the following. The slums of the City, wherever they exist, should be first improved, by knocking down insanitary buildings, providing against over-crowding, bad drainage and otherwise defective sanitation. Proper quarters should be found for the surplus population removed from such localities; and such assistance as is possible and reasonably practical should be extended to poor people for building

proper houses. A comprehensive scheme of proper drainage should be devised, not necessarily with a view to attain theoretical but unpractical perfection, but to meet the reasonable needs of the City.

"The above are only general directions, but it will be for the Committee which the Government has resolved to appoint to study the matter in all its various aspects both scientific and practical, and to devise a scheme for the consideration of Government, going into reasonable details. The President and members, who are named below, are requested to enter upon their work has early as they conveniently can and submit a detailed account of their proposals with as accurate an estimate of cost as they can. They should also indicate in what order and in which manner the scheme would in their opinion be best carried out."

The Committee has accordingly submitted a series of schemes on comprehensive lines, showing the improvements which should, in their opinion, be effected in the different parts of the City, and these schemes are now under the consideration of Government.

The scheme as a whole comprises the formation of new and the alteration of existing streets, the removal or alteration of insanitary buildings, the provision of proper drainage, and of open spaces for better ventilation and recreation, and the construction of sanitary dwellings for the poorer and working classes displaced in the course of the execution of the scheme.

As regards the execution of the scheme several alternatives present themselves. The work might be entrusted to any of the following agencies: the Deputy Commissioner and the District Officers, the City Municipality, a special officer appointed for the purpose, the Public Works Department, or a combination of any of these authorities. In each case, however, there are objections to the employment of these agencies whether severally or in combination. The Municipal staff is fully occupied in attending to the ordinary administration, whilst the demands on the leisure of the Commissioners cannot, in fairness, be substantially increased. Similar considerations apply with even greater force to the Deputy Commissioner and his Assistants. Again the Public Works Department would be capable of dealing with the engineering portion of the scheme. But this is not either the most difficult, or even the most important portion. An infinite number of administrative and economic problems involved in dealing with public and private rights on a large scale and the transfer of the population to more sanitary quarters, must be dealt with. Such a burden it would not be desirable to place on the shoulders of one man, in the shape of a special officer. Finally it is essential to enlist so far as may be the sympathy of those immediately concerned and of the public generally, and this end could scarcely be achieved by a purely official agency. At the same time efficient management and prompt executive action are essential, and it seems imperative therefore to appoint a special agency with a separate staff, at liberty to devote its entire energies to the task presented.

Under the circumstances, His Highness the Maharaja has decided to follow the precedent set by the Government of Bombay and to constitute a small trust to be styled "The Board of Trustees for the Improvement of the City of Mysore" with special powers to administer the funds placed at its disposal, to acquire and handle property and generally to carry out the necessary works of improvement.

The necessary enambling powers are contained in the accompanying Draft Regulation, which (except as regards the financial and a few other provisions) follows more or less the lines of the Bombay Act IV of 1898.

Chapter I, (sections 1 and 2) *Preliminary*, requires no explanation.

Chapter II (sections 3 to 13) deals with the *Constitution of the Board of Trustees*, as well as with their proceedings and the duties of the Chairman. Section 4 provides for the representation of all the interests chiefly concerned, as far as this can be done on a small administrative body like the Board of Trustees.

Chapter III (sections 14 to 25) deals with the *Duties and Powers of the Board*. The Board's primary duty will be to elaborate the details of the comprehensive schemes submitted by the Improvement Committee from time to time and to carry out the detailed schemes for improvement after they are sanctioned by Government. The Board may also submit additional schemes when necessary, and if funds permit. As regards the acquisition of lands and buildings (sections 22 to 25), the provisions of the Land Acquisition Regulation, 1894, have (with the few exceptions noted in Schedule A) been made applicable. For the prompter and more effective disposal of claims etc., the Chairman of the Board will have the powers of a Deputy Commissioner under the Land Acquisition Regulation, just as the Chairman of the Corporation of Calcutta has under section 557 of the Calcutta Municipal Act, 1899. Section 25 explains the further matters to be considered in determining compensation, *i. e.*, in addition to the matters set forth in section 23 [except sub-section (2)] of the Land Acquisition Regulation.

Chapter IV (sections 26 to 35) relates to *Property and Finance*. The lands* required for extensions of the City, and not yet disposed of to private parties, will vest in the Board at the outset. The powers of the Board in respect of acquiring and holding property, and of the application or disposal of property vested in or acquired by them, are mentioned in detail in section 27. The items constituting the Improvement Fund are referred to in section 28. One important respect in

*These will be set out in Schedule B.

which the Draft Regulation differs from the Bombay Act is the fact that the Board of Trustees for the Mysore City will have no borrowing powers, and therefore no liability in regard to re-payment, but will merely administer the funds from time to time placed at their disposal by the Government and the Municipal Commission under section 28. In connection with the application of the Fund, it may be mentioned that the Board will have power, under section 29 (3), to advance loans for house-building purposes in suitable cases, in accordance with rules to be framed by Government. The provisions in regard to accounts and their audit are made simpler than in the Bombay Act.

Chapter V (sections 36 to 38) deals with the *Officers and Servants of the Board,* including those who may be lent to the Board by Government.

Chapter VI (section 39) is new. It treats of the circumstances in which the *Dissolution of the Board* may become necessary (that is, when the improvement schemes sanctioned for execution by them have been practically completed); and it provides for various incidental matters, such as the devolution of the assets and liabilities of the Board, the disposal and management of property, the completion of incomplete works, and the like.

Chapter VII (sections 40 to 48), regarding *Rules and By-laws, Penalties, etc.,* embodies formal provisions which require no separate explanation. Attention may, however, be drawn to clause (*e*) of section 41 (1), which will enable the Board to prescribe suitable building regulations, and to section 47 under which house-building advances are recoverable as arrears of land revenue.

(2) When any addition to, or improvement of, the land or building has been made after the date of the publication under section 16 of a notification relating to the land or building, such addition or improvement shall not (unless it was necessary for the maintenance of the building in a proper state of repair) be included, nor in the case of any interest acquired after the said date shall any separate estimate of the value thereof be made, so as to increase the amount of compensation to be paid for the land or building ;

(3) In estimating the market value of the building at the date of the publication of a declaration relating thereto under section 18, the Court shall have due regard to the nature and then condition of the property and the probable duration of the building in its existing state and to the state of repair thereof and to the provisions of sub-sections (4), (5) and (6) of this section ;

(4) When the owner of the land or building has, after the passing of this Regulation, and within twenty-four months preceding the date of the publication of a notification relating to the land or building under section 16, made a return under section 232 of the Municipal Regulations of the rent of the land or building, the rent of the land or building shall not in any such case, save as the Court may otherwise direct, be deemed to be greater than the rent shown in the latest return so made : Provided that where any addition to or improvement of the land or building has been made after the date of such latest return and previous to the date of the publication of a notification under section 16 relating to the land or building, the Court may take into consideration any increase in the letting value of the land due to such addition or improvement ;

(5) If in the opinion of the Court the rental of the land or building has been enhanced by reason of its being used for an illegal purpose, or being so overcrowded as to be dangerous or injurious to the health of the inmates, the rental shall not be deemed to be greater than the rental which would be obtainable if the land or building were used for legal purposes only, or were occupied by such a number of persons only as it was suitable to accommodate without risk of such overcrowding ;

(6) If in the opinion of the Court the building is in a state of defective sanitation, or is not in reasonably good repair, the amount of compensation shall not exceed the estimated value of the building after being put into a sanitary condition, or into reasonably good repair, less the estimated expense of putting it into such condition or repair ;

(7) If in the opinion of the Court the building being used or intended or likely to be used for human habitation is not reasonably capable of being made fit for human habitation, the amount of compensation shall not exceed the value of the materials, less the cost of demolition.

STATEMENT OF OBJECTS AND REASONS.

In September last the Government appointed a Committee to devise a scheme for the improvement of the City of Mysore, for reasons which were thus stated in their order :—

Government Order No. 4168-79—L. F. 36-02, dated 18th September 1902.

"It is unfortunate that the City of Mysore, notwithstanding the large sums spent upon it for improvements, should still be subject to outbreaks of plague each successive year. Government consider that nothing but sustained exertions for carrying out a carefully prepared programme of sanitary improvements can establish the health of the place. Congested portions should be opened up not simply by demolishing houses and sending the inhabitants adrift, but by devising suitable extensions and affording facilities for the building of houses. It is unlikely that the Municipality will be able to find all the money required for improving the City. But taking its general importance as the Capital of the State into consideration, His Highness the Maharaja considers that the State may properly bear a large part of such extraordinary outlay. How much of the expenditure required may be fairly expected to be met out of Municipal resources, is a question that can be settled only after obtaining an approximate idea of its total amount.

"The scheme may be completely thought out and matured once for all. It would be impossible even for the State to find all the money at once; but the expenditure may be spread over a number of years.

"The general lines on which improvements could be usefully designed seem to be the following. The slums of the City, wherever they exist, should be first improved, by knocking down insanitary buildings, providing against over-crowding, bad drainage and otherwise defective sanitation. Proper quarters should be found for the surplus population removed from such localities; and such assistance as is possible and reasonably practical should be extended to poor people for building

proper houses. A comprehensive scheme of proper drainage should be devised, not necessarily with a view to attain theoretical but unpractical perfection, but to meet the reasonable needs of the City.

"The above are only general directions, but it will be for the Committee which the Government has resolved to appoint to study the matter in all its various aspects both scientific and practical, and to devise a scheme for the consideration of Government, going into reasonable details. The President and members, who are named below, are requested to enter upon their work as early as they conveniently can and submit a detailed account of their proposals with as accurate an estimate of cost as they can. They should also indicate in what order and in which manner the scheme would in their opinion be best carried out."

The Committee has accordingly submitted a series of schemes on comprehensive lines, showing the improvements which should, in their opinion, be effected in the different parts of the City, and these schemes are now under the consideration of Government.

The scheme as a whole comprises the formation of new and the alteration of existing streets, the removal or alteration of insanitary buildings, the provision of proper drainage, and of open spaces for better ventilation and recreation, and the construction of sanitary dwellings for the poorer and working classes displaced in the course of the execution of the scheme.

As regards the execution of the scheme several alternatives present themselves. The work might be entrusted to any of the following agencies: the Deputy Commissioner and the District Officers, the City Municipality, a special officer appointed for the purpose, the Public Works Department, or a combination of any of these authorities. In each case, however, there are objections to the employment of these agencies whether severally or in combination. The Municipal staff is fully occupied in attending to the ordinary administration, whilst the demands on the leisure of the Commissioners cannot, in fairness, be substantially increased. Similar considerations apply with even greater force to the Deputy Commissioner and his Assistants. Again the Public Works Department would be capable of dealing with the engineering portion of the scheme. But this is not either the most difficult, or even the most important portion. An infinite number of administrative and economic problems involved in dealing with public and private rights on a large scale and the transfer of the population to more sanitary quarters, must be dealt with. Such a burden it would not be desirable to place on the shoulders of one man, in the shape of a special officer. Finally it is essential to enlist so far as may be the sympathy of those immediately concerned and of the public generally, and this end could scarcely be achieved by a purely official agency. At the same time efficient management and prompt executive action are essential, and it seems imperative therefore to appoint a special agency with a separate staff, at liberty to devote its entire energies to the task presented.

Under the circumstances, the Government of His Highness the Maharaja propose to follow the precedent set by the Government of Bombay and to constitute a small trust to be styled "The Board of Trustees for the Improvement of the City of Mysore" with special powers to administer the funds placed at its disposal, to acquire and handle property and generally to carry out the necessary works of improvement.

The necessary enabling powers are contained in the accompanying Draft Regulation, which (except as regards the financial and a few other provisions) follows more or less the lines of the Bombay Act IV of 1898.

Chapter I, (sections 1 and 2) *Preliminary*, requires no explanation.

Chapter II (sections 3 to 13) deals with the *Constitution of the Board of Trustees*, as well as with their proceedings and the duties of the Chairman. Section 4 provides for the representation of all the interests chiefly concerned, as far as this can be done on a small administrative body like the Board of Trustees.

Chapter III (sections 14 to 25) deals with the *Duties and Powers of the Board*. The Board's primary duty will be to elaborate the details of the comprehensive schemes submitted by the Improvement Committee from time to time; and to carry out the detailed schemes for improvement after they are sanctioned by Government. The Board may also submit additional schemes when necessary, and if funds permit. As regards the acquisition of lands and buildings (sections 22 to 25), the provisions of the Land Acquisition Regulation, 1894, have (with the few exceptions noted in Schedule A) been made applicable. For the prompter and more effective disposal of claims, etc., the Chairman of the Board will have the powers of a Deputy Commissioner under the Land Acquisition Regulation, just as the Chairman of the Corporation of Calcutta has under section 557 of the Calcutta Municipal Act, 1899. Section 25 explains the further matters to be considered in determining compensation, *i. e.*, in addition to the matters set forth in section 23 [except sub-section (2)] of the Land Acquisition Regulation.

Chapter IV (sections 26 to 35) relates to *Property and Finance*. The lands* acquired for extensions of the City, and not yet disposed of to private parties, will vest in the Board at the outset. The powers of the Board in respect of acquiring and holding property, and of the application or disposal of property vested in or acquired by them, are mentioned in detail in section 27. The items constituting the Improvement Fund are referred to in section 28. One important respect in

*These will be set out in Schedule B.

which the Draft Regulation differs from the Bombay Act is the fact that the Board of Trustees for the Mysore City will have no borrowing powers, and therefore no liability in regard to re-payment, but will merely administer the funds from time to time placed at their disposal by the Government and the Municipal Commission under section 28. In connection with the application of the Fund, it may be mentioned that the Board will have power, under section 29 (3), to advance loans for house-building purposes in suitable cases, in accordance with rules to be framed by Government. The provisions in regard to accounts and their audit are made simpler than in the Bombay Act.

Chapter V (sections 36 to 38) deals with the *Officers and Servants of the Board*, including those who may be lent to the Board by Government.

Chapter VI (section 39) is new. It treats of the circumstances in which the *Dissolution of the Board* may become necessary (that is, when the improvement schemes sanctioned for execution by them have been practically completed); and it provides for various incidental matters, such as the devolution of the assets and liabilities of the Board, the disposal and management of property, the completion of incomplete works, and the like.

Chapter VII (sections 40 to 48), regarding *Rules and By-laws, Penalties, etc.*, embodies formal provisions which require no separate explanation. Attention may, however, be drawn to clause (*e*) of section 41 (1), which will enable the Board to prescribe suitable building regulations, and to section 47 under which house-building advances are recoverable as arrears of land revenue.

SCHEDULE B.

(See section 26.)

STATEMENT OF OBJECTS AND REASONS.

In September last the Government appointed a Committee to devise a scheme for the improvement of the City of Mysore, for reasons which were thus stated in their order:—

Government Order No. 24168-79—L. F. 36-02, dated 18th September 1902.

"It is unfortunate that the City of Mysore, notwithstanding the large sums spent upon it for improvements, should still be subject to outbreaks of plague each successive year. Government consider that nothing but sustained exertions for carrying out a carefully prepared programme of sanitary improvements can establish the health of the place. Congested portions should be opened up not simply by demolishing houses and sending the inhabitants adrift, but by devising suitable extensions and affording facilities for the building of houses. It is unlikely that the Municipality will be able to find all the money required for improving the City. But taking its general importance as the Capital of the State into consideration, His Highness the Maharaja considers that the State may properly bear a large part of such extraordinary outlay. How much of the expenditure required may be fairly expected to be met out of Municipal resources, is a question that can be settled only after obtaining an approximate idea of its total amount.

The scheme may be completely thought out and matured once for all. It would be impossible even for the State to find all the money at once; but the expenditure may be spread over a number of years.

The general lines on which improvements could be usefully designed seem to be the following. The slums of the City, wherever they exist, should be first improved, by knocking down insanitary buildings, providing against over-crowding, bad drainage and otherwise defective sanitation. Proper quarters should be found for the surplus population removed from such localities; and such assistance as is possible and reasonably practical should be extended to poor people for building

proper houses. A comprehensive scheme of proper drainage should be devised, not necessarily with a view to attain theoretical but unpractical perfection, but to meet the reasonable needs of the City.

"The above are only general directions, but it will be for the Committee which the Government has resolved to appoint to study the matter in all its various aspects both scientific and practical, and to devise a scheme for the consideration of Government, going into reasonable details. The President and members, who are named below, are requested to enter upon their work as early as they conveniently can and submit a detailed account of their proposals with as accurate an estimate of cost as they can. They should also indicate in what order and in which manner the scheme would in their opinion be best carried out."

The Committee has accordingly submitted a series of schemes on comprehensive lines, showing the improvements which should, in their opinion, be effected in the different parts of the City, and these schemes are now under the consideration of Government.

The scheme as a whole comprises the formation of new and the alteration of existing streets, the removal or alteration of insanitary buildings, the provision of proper drainage, and of open spaces for better ventilation and recreation, and the construction of sanitary dwellings for the poorer and working classes displaced in the course of the execution of the scheme.

As regards the execution of the scheme several alternatives present themselves. The work might be entrusted to any of the following agencies: the Deputy Commissioner and the District Officers, the City Municipality, a special officer appointed for the purpose, the Public Works Department, or a combination of any of these authorities. In each case, however, there are objections to the employment of these agencies whether severally or in combination. The Municipal staff is fully occupied in attending to the ordinary administration, whilst the demands on the leisure of the Commissioners cannot, in fairness, be substantially increased. Similar considerations apply with even greater force to the Deputy Commissioner and his Assistants. Again the Public Works Department would be capable of dealing with the engineering portion of the scheme. But this is not either the most difficult, or even the most important portion. An infinite number of administrative and economic problems involved in dealing with public and private rights on a large scale and the transfer of the population to more sanitary quarters, must be dealt with. Such a burden it would not be desirable to place on the shoulders of one man, in the shape of a special officer. Finally it is essential to enlist so far as may be the sympathy of those immediately concerned and of the public generally, and this end could scarcely be achieved by a purely official agency. At the same time efficient management and prompt executive action are essential, and it seems imperative therefore to appoint a special agency with a separate staff, at liberty to devote its entire energies to the task presented.

Under the circumstances, the Government of His Highness the Maharaja propose to follow the precedent set by the Government of Bombay and to constitute a small trust to be styled "The Board of Trustees for the Improvement of the City of Mysore" with special powers to administer the funds placed at its disposal, to acquire and handle property and generally to carry out the necessary works of improvement.

The necessary enabling powers are contained in the accompanying Draft Regulation, which (except as regards the financial and a few other provisions) follows more or less the lines of the Bombay Act IV of 1898.

Chapter I, (sections 1 and 2) *Preliminary*, requires no explanation.

Chapter II (sections 3 to 13) deals with the *Constitution of the Board of Trustees*, as well as with their proceedings and the duties of the Chairman. Section 4 provides for the representation of all the interests chiefly concerned, as far as this can be done on a small administrative body like the Board of Trustees.

Chapter III (sections 14 to 25) deals with the *Duties and Powers of the Board*. The Board's primary duty will be to elaborate the details of the comprehensive schemes submitted by the Improvement Committee from time to time, and to carry out the detailed schemes for improvement after they are sanctioned by Government. The Board may also submit additional schemes when necessary, and if funds permit. As regards the acquisition of lands and buildings (sections 22 to 25), the provisions of the Land Acquisition Regulation, 1894, have (with the few exceptions noted in Schedule A) been made applicable. For the prompter and more effective disposal of claims, etc., the Chairman of the Board will have the powers of a Deputy Commissioner under the Land Acquisition Regulation, just as the Chairman of the Corporation of Calcutta has under section 557 of the Calcutta Municipal Act, 1899. Section 25 explains the further matters to be considered in determining compensation, *i. e.*, in addition to the matters set forth in section 23 [except sub-section (2)] of the Land Acquisition Regulation.

Chapter IV (sections 26 to 35) relates to *Property and Finance*. The lands* acquired for extensions of the City, and not yet disposed of to private parties, will vest in the Board at the outset. The powers of the Board in respect of acquiring and holding property, and of the application or disposal of property vested in or acquired by them, are mentioned in detail in section 27. The items constituting the Improvement Fund are referred to in section 28. One important respect in

*These will be set out in Schedule B.

which the Draft Regulation differs from the Bombay Act is the fact that the Board of Trustees for the Mysore City will have no borrowing powers, and therefore no liability in regard to re-payment, but will merely administer the funds from time to time placed at their disposal by the Government and the Municipal Commission under section 28. In connection with the application of the Fund, it may be mentioned that the Board will have power, under section 29 (3), to advance loans for house-building purposes in suitable cases, in accordance with rules to be framed by Government. The provisions in regard to accounts and their audit are made simpler than in the Bombay Act.

Chapter V (sections 36 to 38) deals with the *Officers and Servants of the Board,* including those who may be lent to the Board by Government.

Chapter VI (section 39) is new. It treats of the circumstances in which the *Dissolution of the Board* may become necessary (that is, when the improvement schemes sanctioned for execution by them have been practically completed); and it provides for various incidental matters, such as the devolution of the assets and liabilities of the Board, the disposal and management of property, the completion of incomplete works, and the like.

Chapter VII (sections 40 to 48), regarding *Rules and By-laws, Penalties, etc.,* embodies formal provisions which require no separate explanation. Attention may, however, be drawn to clause (*e*) of section 41 (1), which will enable the Board to prescribe suitable building regulations, and to section 47 under which house-building advances are recoverable as arrears of land revenue.
